

# Veganic Summit

Learn about plant-based farming and gardening

**Free online event coming**

**November 7th–9th, 2025**

**Join us to explore**

- How farms and gardens can flourish using plant-based fertilisers (without bloodmeal, bonemeal, or manure from farmed animals)
- How veganic is key to society transitioning to fully vegan food production
- How veganic bolsters biodiversity, builds soil, and helps our environment
- How you can implement veganic techniques in your own garden or farm
